WAR FOOD ADMINISTRATION
Washington 25, D. C.

November 5, 1943

ADMINISTRATOR'S MEMORANDUM NO. 32

Appointment of Price Support Committee

Early determination and announcement of the commodities to which the War Food Administration will give price support during the crop year 1944-45 and the level of such support prices are desirable. Further it is desirable to take into account all factors in order to arrive at appropriate recommendations for my consideration.

Accordingly, I am designating the following persons to serve as a committee to prepare recommendations covering the commodities to be supported and the level of support prices:

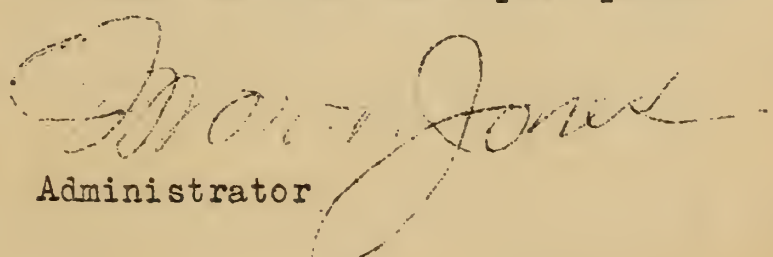

Ashley Sellers (Chairman)
J. B. Hutson
Roy F. Hendrickson
H. B. Boyd
N. E. Dodd
Budd Holt
S. R. Smith

Consultant to the Committee
O. V. Wells
Legal Adviser to the Committee
Robert H. Shields

The services of all agencies or personnel of the War Food Administration will be available to the committee at the request of the chairman.

Consideration should be given to the reports resulting from the State goal committee meetings; to the anti-inflation policies of the Administration, particularly as expressed in the President's message on food; to keeping the administration of the program as simple as possible; and to the cost to taxpayers in the form both of program and administrative expense.

It is my desire that a full statement of justification be supplied in the case of each commodity and that the specific type of price support program applicable be stated. I desire to have the report placed before me by December 1.

Administrator
